**Model: PHD-HM5**

The most advanced HD media jukebox on the market

PrimeDTV HD Media player, PHD-HM5, is the most convenient way to play HD movies or user-generated videos, listen to high-quality digital music, and show high-resolution slideshows of your family photos on your TV. With outputs HDMI (up to1080p), Component Y-Pb-Pr (1080i/720p/480p) and inputs from USB 2.0 and Ethernet, PHD-HM5 guarantees maximum performance while delivering the ultimate quality in high definition video and audio.

Features:

☐ **H.264 (MKV)**
"Superb HD picture quality with reduced storage".
Video files encoded in H.264 translate to better quality video while taking up lower storage space on the hard drive. The PHD-HM5 can play many high definition video format files encoded in H.264 standard at up to 1080p resolution.

☐ **HDMI (up to 1080P)**
"Pure path for digital video & audio"
The PHD-HM5 is equipped with HDMI output, the default connection type for new generation HDTV display.

☐ **USB2.0 Host**
With two USB2.0 host ports, you can now attach additional external USB hard drives to further extend the storage capacity besides of playback files from a digital camera, USB flash driver, USB flash card reader, or a MP3 player.

☐ **Ethernet Network Connection**
PHD-HM5 can be networked with a PC system using its built-in LAN port. You are able to navigate to a file in a PC on PHD-HM5 and play the file from its original destination.
